Norton, First Woman to Chair EEOC, Returned for 50th Anniversary of Commission Opening July 2

“By the time I was privileged to chair the Commission 12 years after it opened, the EEOC had been so successful in issuing landmark interpretations that Americans filed complaints until they buried the agency in backlog...I knew I had to reduce the backlog, as I had before when I chaired the New York City Human Rights Commission. Norton Supports Nuclear Agreement to Block Iran’s Path to a Bomb

“The key to the deal for me is transparency. The details show regular access to all of Iran’s nuclear facilities and supply chains by the International Atomic Energy Agency, in addition to access to any alleged covert enrichment facility. Many who have prematurely voiced criticism have taken the position of those in Congress for whom negotiations means all or nothing capitulation. Such results are the antithesis of successful international agreements.” —Congresswoman Norton
